

Alt Mobility - Business Insights Brief Summary Report

1. Order & Sales Performance

- Total Orders: 15,000+ processed. Majority are marked as delivered and shipped, while around 33.79% remain pending, raising concerns about fulfillment delays. Also it takes time to ship the order.
- Average Order Amount is constant throughout the year 2020 - 2025. i.e Rs. 255 - Rs. 258. Same with Total orders and Total sales there isn't any major difference in that.

2. Customer Behavior & Retention

- **Customer Base:** Most users placed only one order roughly around 2932. Roughly 2,900–4,400 are repeat customers, indicating moderate loyalty.
- **Retention Trend:** Retention drops sharply after the second month.
- **Loyalty Insights:** High-value repeat customers tend to stay active longer (up to 1,000+ days) according to Cohort Analysis and spend more overall.
- Since October 2022, there has been a decline in new customer acquisitions, coupled with an increase in repeat customer purchases. The data for 2025 reveals that while repeat purchases are at their highest, it also shows the lowest number of new customer purchases.
- **Customer Order Distribution-** 1 order: 2932, 2 order: 2303 3 order: 1283. there is Huge potential of sales if the company manages to convert them.

3. Payment System Analysis

- **Status Breakdown:** Out of all payments:
 - 33.05% are successful
 - 33.48% are failed
 - 33.47% are pending
- This split highlights a major reliability issue in the payment process, potentially affecting customer trust and order completion.
- **Top Payment Methods:** PayPal, bank transfers, and credit cards are most used, but none have success rates above 35%, with PayPal being slightly better.

4. Operational Challenges

- More orders are marked as delivered than shipped, pointing to data or process inconsistencies.
- Pending Orders: Delays in fulfillment, inventory, or logistics contribute to pending orders and customer dissatisfaction.
- Average Retention Rate by Cohort Month is highest at 2025-02 (188.05) and lowest at 2020-01 (30.43).

Key Recommendations

- Streamline payment gateways, ensuring compatibility with services like PayPal and credit cards.
- Provide limited-time offers or exclusive rewards to first-time customers to inspire them to return.
- Company losing customer over failed payment try to make it right.
- Improve coordination between shipping and delivery systems.
- Invest in additional stock and marketing efforts during peak seasons
